

I am honored to serve as Chairman of the Greater Enid Chamber of Commerce. Enid is home. I was born and raised here and am grateful for such a wonderful community to raise my children. A community is made by the people. We are fortunate to have strong business leaders, selfless volunteers and dedicated ambassadors that support our community and want to see it prosper.

Our education institutions are top notch. The partnerships and collaborations between our secondary and higher education institutions provide amazing opportunities for students and continually improve our workforce development. Our regional higher education institutions are vital to Enid and NW Oklahoma. The Enid Chamber will continue to support efforts to increase enrollment at Autry Tech and our Enid campuses for NOC & NWOSU.

In the coming year we will continue to promote growth. The Scissortail Renewables project involves cutting-edge technology where methane from municipal waste will be converted to renewable natural gas. Enid will also see an investment in solar energy through NextEra Energy Resources and their planned solar center and battery storage which will be located southeast of Enid. The planned launch of the new residency program at Great Salt Plains Health center will be a great asset to our community. This new program will be crucial to physician recruitment in NW Oklahoma.

The Greater Enid Chamber supports efforts to recruit a major department store and national retailers to Enid. We will also back the City of Enid in their efforts to bring a movie theater to our city. These projects will increase Enid's market share and drawing power. I would be remiss if I didn't mention our fabulous downtown area. Downtown Enid is flourishing with restaurants, bars, breweries, boutiques and art projects. Families can watch a concert at the Stride Bank Center or catch a baseball game at the beautiful David Allen Memorial Ballpark.

Our relationship with Vance Air force Base is vital. We will continue to advocate for funding initiatives for the squadron ops facility and Eisenhower Elementary School project. We are so thankful for our military men and women. Coordinating Enid's Military discount program and Enlisted Appreciation Night are a few ways the Chamber can show our appreciation.

Thanks to the many community partnerships, Enid is a thriving city with a bright future. We will continue to build on all the hard work and progress. Thank you for the opportunity to serve the Chamber and our community.

Andie Cremer
2024-25 Board Chair
