

**WCHQ Assembly**  
**“Growing Up Healthy”**  
**November 13, 2019**  
**Monona Terrace, Madison, WI**

**Megan Piper, PhD**, is an Associate Professor in the University of Wisconsin Department of Medicine and the Associate Director of Research at the University of Wisconsin Center for Tobacco Research and Intervention. Dr. Piper's research focuses on understanding and treating tobacco dependence, with an additional interest in different populations of smokers who have more difficulty quitting, such as women and smokers with mental illness and in electronic cigarettes.

**Jon Temte, MD, PhD** is associate dean for public health and community engagement at the UW School of Medicine and Public Health. He will also oversee the Office of Rural Health and the Area Health Education Center, as well as the Center for Urban Population Health. He is an expert in vaccines and immunization policy, and he has served on the US Advisory Committee on Immunization Practices, (ACIP), and he was the first family physician to chair ACIP from 2012 – 2015. Dr. Temte has a long history of building bridges between public health and clinical medicine.

**Penny Funk, RN, MS**, is the Pediatric Clinical Quality Nurse for the Institute for Quality, Innovation and Patient Safety (IQIPS) department of Marshfield Clinic Health System. Penny has over 30 years of experience in customer service roles, 19 years of which working directly with children. She has 12 years of experience working as a pediatric nurse in an acute care setting, and many years of supervisory experience. Ms. Funk also received advanced education as a Sexual Assault Nurse Examiner.

**Amy Olejniczak, MS, MPH**, is the Associate Director Wisconsin Alliance for Women's Health. Amy dedicates most of her time to ensuring that women and girls in Wisconsin can reach their highest health potential. Amy also worked at Group Health Cooperative of South Central Wisconsin on health communication and health promotion efforts. She directs the Providers And Teens Communicating for Health Program (PATCH).

**Michelle Kelly, MD** is an Associate Professor and Pediatric hospitalist in the Department of Pediatrics at the University of Wisconsin School of Medicine and Public Health. Her research is focused on leveraging tools and technology to engage families to improve the quality and safety of care of hospitalized children. Her research has been disseminated in over 100 publications and presentations and featured in the Washington Post.
