The R.A.I.S.E. Report

Director's Message

MCPS Sports Nation – To begin, I hope you and yours are safe and well and that your school year is off to a great start! While we continue to face challenging times, I am inspired by the collective efforts of stakeholders across MCPS Athletics, as we

have reimagined the experience for our student-athletes during the upcoming school year. The virtual delivery of our program was created by our design teams of R.A.I.S.E. Reimagineers, who used feedback from our survey, input from coaches, and, most importantly, student voice to shape virtual activities and experiences. We look forward to the return of in-person engagement for our student-athletes, when health metrics allow and in alignment with MCPS operations. More information will be shared real-time, as we prepare for the in-person formal seasons during the second semester. Please know our paramount priority is the health and safety of our student-athletes and stakeholders. Finally, we are excited to debut committees that will assist in enhancing operations across our program, including our Equity and Social Justice Committee. This committee of self-named “change agents” has begun their efforts by designing experiences during the virtual seasons for students to engage and support our efforts around equity, social justice, and anti-racism across MCPS Athletics and beyond. We look forward to this engagement and the rest of the opportunities for our student-athletes to excel during the school year. We invite you to join us in embracing our mindset of We CAN, We WILL, We R.A.I.S.E.!
