Rehabilitation**

C.L.E.A.R. is a peer support group for men who have been formerly incarcerated and/or who are on Probation or Parole. We welcome all men who have had contact with the criminal justice system to join us and help support one another.

Weekly meetings are led by a successfully returned citizen in partnership with a uniformed officer. The group encourages active participation from all in attendance.

C.L.E.A.R. exists to break the cycle of recidivism by building community and law enforcement relationships to lead, educate and mentor returning citizens, thereby creating safer communities and improving lives.
