SATURDAY, MAY 31ST

7:00AM – 8:00AM	Registration, Breakfast and Exhibit Hall	
8:00AM – 9:30AM	The Synergy of Digital and Analog Dentistry for Patient Care Discovery Ballroom <i>Dr. Keith Phillips, DMD, MSD, CDT, FACP Implant Dentistry NW</i> <p>As in all medical fields, technology is having an impact in dentistry. Dental professionals are seeing an influx of new and improved technology that can help them be more efficient and effective in their practice. These technologies are present in the both the dental clinic and dental laboratory so a basic understanding of how they communicate is extremely important. This presentation will discuss some of the newer materials, technologies, and techniques, and how to blend them with analog modalities, to best suit our patients' needs.</p> <p>This course is eligible for 1.5 hours of CE credit</p>	
	9:30AM – 10:30AM Tips for Successful Complete Overdentures Discovery Ballroom <i>Ruth Bourke, BSc Wren Dental USA</i> <p>Ruth will discuss her Laboratory experience, following Dr John Kois step by step Clinical parameters for implant supported and implant assisted complete dentures.</p> <p>1This course is eligible for 1.5 hours of CE credit</p>	9:30AM – 10:30AM What Now? Restoring the Compromised Dentition Hemlock/Oak Room <i>Leon Hermanides, CDT Protea Dental Studio Inc.</i> <p>Developing a three-dimensional plan balances the patient's risk assessment, their chief concerns and life circumstances to understand the implications of any compromises from ideal required, without ever touching a bur to a tooth. With the technology available to the modern dental laboratory, once this plan has been developed the data can be used to provide the steppingstones (and test the plan) in a simple and predictable process to achieve world class outcomes. As each step can be evaluated virtually, based on the blueprint, and based on the patient's experience of trial solutions, the outcome can be refined as we adapt to a changing environment. This program will introduce and demonstrate how this process can benefit patients with varying degrees of dental disability.</p> <p>This course is eligible for 1.5 hours of CE credit</p>
	10:30AM – 11:30AM Daily Digital Discovery Ballroom <i>James Anderson, LD Pivotal Denture Studio</i> <p>Techniques for basic and advanced digital denture workflows.</p> <p>This course is eligible for 1.0 hours of CE credit</p>	10:30AM – 11:30AM Understanding the Basics of Smile Design Hemlock/Oak Room <i>Matt Kim, Nakanishi Dental Lab</i> <p>This session will offer attendees a comprehensive introduction to utilizing Smile Design in Exocad. Topics covered will include optimal photo-taking techniques, setup procedures, and an overview of the tools available to enhance the aesthetics of anterior cases.</p> <p><i>This course is eligible for 1.0 hours of CE credit</i></p>
	11:30AM – 1:00PM Lunch & Exhibit Hall Discovery Ballroom <p>Earn 1.5 hours with Vendor signatures</p>	12:00PM – 12:30PM WSDLA Membership Meeting Hemlock/Oak Room
