

Can I get help to complete the PASS application?

You should write your PASS with the help of a rehabilitation specialist, such as a Department of Vocational Rehabilitation or your local WIPA project. SSA has contracted with local organizations to provide benefits planning. Some of these organizations may be able to assist with completing a PASS application. For more information about the Work Incentives Planning Assistance, go to: <http://www.ssa.gov/work/WIPA.html>

Also, the PASS Cadre is required to keep a list of agencies that can help with completing the PASS application.
