

# Recognizing the Legacy & Celebrating the Future of the OHI

With the Ontario Restaurant Hotel & Motel Association (ORHMA) taking on stewardship of the Ontario Hostelry Institute (OHI), we look forward to hosting the hospitality industry as we recognize the esteemed history of the OHI and where we will share the vision for the new OHI.

The NEW OHI as the Ontario Hospitality Institute, will be reflecting alignment with both the lodging and foodservice segments. OHI's overriding purpose is to support the advancement of future workforce needs and the further development of the industry's profession.

A big part of what we will be undertaking will include financial support of students and student programs as well as outreach efforts to recruit more youth into our industry. We will be establishing advisory and outreach groups of industry leaders to help guide the efforts of the OHI in its efforts and work with industry to fund these initiatives.

We look forward to celebrating with you!
