IN-PERSON (with COVID precautions)  
or STREAMING

IN-PERSON: Plant City, FL: Friday, April 23, 2021

LIVE STREAMING: Friday, April 23, 2021

**ELECTRICAL ACCIDENTS ARE THE  
NUMBER 2 KILLER IN OUR INDUSTRY!  
LET'S DO SOMETHING ABOUT IT.**

***This seminar is intended for  
ALL ARBORISTS!***

This full-day workshop will provide Electrical Hazard Awareness Training. It will NOT satisfy EHAP certification. This workshop will provide a certificate of training that satisfies requirements for one major OSHA standard for individuals working ten feet or closer to energized conductors.

- The morning will be devoted to a discussion of the hazards that electrical conductors create for tree workers and the means tree workers must employ to reduce their exposure to these hazards.
- The afternoon will cover the injuries that occur from electrical contact and how workers should respond to these incidents.

**MEET OUR SAFETY EXPERT**

**Dr. John Ball**  
Professor, South Dakota State University

**John Ball** is currently a Professor of Forestry at South Dakota State University in Brookings, SD and also serves as a campus arborist for the University and as the Forest Health Specialist for the South Dakota Department of Agriculture. He received the Malo Teaching Excellence Award in 2018 for his dedication to student learning. One of his research interests is tree worker safety. Dr. Ball obtained his Ph.D. and M.S. in Forestry from Michigan State University and a B.S. in Forestry from Michigan Technological University. Dr. Ball is also on the Safety Committee for the Tree Care Industry Association. He has served on the board for the Midwestern Chapter, once in the 1980s, again in the 1990s and just recently completed his third term.

**CLASS AGENDA**

\*\* COVID precautions will be in place at the in-person class (face masks covering nose/mouth & social distancing) \*\*

8:00-8:30  
Registration, breakfast items (available at live classes)

8:30 - 12 noon  
Morning Session (includes one 15 minute break)  
The morning discussions will include the following topics:

- How electricity works and basic terminology
- Recent incidents involving tree workers and electrical conductors
- Current standards and regulations
- Electrical hardware identification
- Estimating nominal voltage and the importance of doing so
- Work practices to reduce exposure

12 noon - 1:00 Lunch (provided at live classes)

1:00 - 4:00 Afternoon Session (includes one 15 minute break)  
The afternoon will include discussion focused on the response to electrical contact incidents involving workers who are aloft, either climbers or aerial lift operators.

4:00 Adjourn and sign for CEUs
