Participants completed the 10-month peer coaching leadership program that supports faculty, staff and trainees in developing or enhancing emotional intelligence. Leadership competencies included communication and relationship management, leadership, and professionalism. Each participant received individual coaching with career and leadership coach Dr. Mary Ahn to develop personalized leadership goals. Participants subsequently came together for 9-monthly sessions, co-facilitated by Dr. Boris Lorberg and Barb Grimes-Smith, to discuss different topics, present leadership challenges, and receive peer coaching/support.

#### **Feedback from a Leadership College Graduate:**

“Good experience, looking at our hard work from so many angles. Really a thoughtful and respectful group formed and together, we paid attention to the leadership skills we all need to develop.”

**Call for applications for the 2019-2020 Leadership College will be coming this summer!**
