

Focus “Ahn” Professional Development

UMass Psychiatry Leadership College

By Mary Ahn, MD, DFAACAP, ACC

Vice Chair for Academic Affairs and Career Development

Associate Professor of Psychiatry and Pediatrics

Director, Career Development and Research Office (CDRO)

Director, Child and Adolescent Psychiatry Training

It's hard to believe that we are starting our 6th cycle of the [CDRO Leadership College Program](#)! We continue to receive outstanding applicants and growing interest in this program as more faculty and staff want to increase their leadership skills and level of engagement and influence in an evolving healthcare environment. And they do not want to do this alone or in a bubble! In addition to 1:1 coaching on individual leadership goals, our participants receive peer coaching within an interdisciplinary group of faculty, staff and trainees across various divisions, programs and groups.

I'd like to personally extend an enthusiastic CONGRATULATIONS to our newly accepted 2019-2020 Leadership College participants.
