

## Challenging Ideas of Gender Norms

PRESENTED BY

### Eli Rigatuso

Eli Rigatuso is a native of Nebraska and was born in 1965. He is the first generation of his family born off the reservation. For the better part of his life he has been an outspoken advocate for the LGBTQ+ Community. It wasn't until he came out as Two Spirit and transgender at the tender age of 50 in 2015 that he realized how all of the intersections of his identity had been used against him not only by folks outside of the community but also within it.

Rigatuso had no idea he was in for the fight of his life, and thankfully, he is still here to tell his story.
