- ✓ We help local businesses develop a younger workforce, which in South Central PA, will be more than 13,000 skilled manufacturing jobs short by 2029.
- ✓ We provide instructional, technical and basic skill training for apprentices as part of our mission to support manufacturing in South Central Pennsylvania and North Central Maryland.
- ✓ We deliver advanced skills and training beyond "OJT" or on-the-job-training.

**For more information contact:
Chris Zimmerman, Apprenticeship Coordinator
at 717-843-3891 or czimmerman@mascpa.org**

Advantages of the Apprentice Program from The Manufacturers' Association:

- Easy Enrollment** – The Association sponsors your company and handles your program paperwork.
- College Credits** – The Manufacturers' Association Apprenticeship Program is accredited with Associate Degrees
- Grant Funding** – Funding for apprenticeships may be available through grants from the Commonwealth of PA.
- Employer Led Consortia** – Regional employers work with the Association to design courses for their needs.
- A highly skilled teaching staff** – Our instructors are experienced journeymen in their trade.
