Brightening your days and nights, LED lighting from Knightlight LED provides many benefits including significant reductions in energy and maintenance costs, as well as providing measurable improvements in lighting performance. With 5 times the life-span of lighting alternatives, and cost savings of more than 40%, Knightlight LED makes more than cents.

Knightlight LED lighting products and services meet the broad needs of many industries including:

- Aviation
- Education
- Fitness Centers
- Gov't/Municipalities
- Car Dealerships
- Healthcare/Hospitals
- Industrial/Warehouses
- Property Management
- Retail
- Ships/Off-Shore Rigs

Setting ourselves from the rest of the LED providers, Knightlight LED provides a comprehensive lighting solution that involves a step-by-step process to ensure your needs are met. Beginning with a site assessment, engineering and test report, and bill analysis, we will develop a specialized recommendation for lighting recommendations, illuminate the savings, design the layout, and present the analytical proposal. The products include:

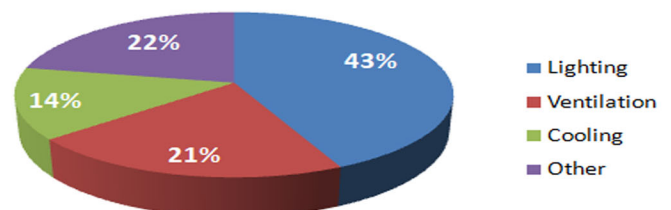

- High Bays
- Retrofit Kits
- Flood Lights
- Shoe Boxes
- Recess Cans
- Wallpacks
- Tubes
- Replacement Fixtures

Knightlight LED has a nationwide team that installs, and provides 24/7 maintenance (the boring part). Remember, they last 50,000 hours.

If you are worried about out-of-pocket costs, you can relax, as there are none. We help you with leasing alternatives that enable you to enjoy significant cost savings immediately. The question is not, "Should I convert to LED?" rather, "Why have I waited?" Call now!
