

A Home for Danielle

Pinetop-Lakeside AZ

Danielle Padilla (Joseph Brock's sister) and her husband live in Pinetop-Lakeside AZ. Danielle serves as a missionary there to the White Mountain Apaches with Apache Youth Ministries. Unfortunately, Danielle was diagnosed a few years ago with a condition that causes her to react negatively to all types of mold. Danielle and her husband have tried living in many different homes in the area, but she would always get really sick because of this condition.

A mutual friend of both Joseph and Danielle, who was already building a styrofoam house, presented the idea of building a styrofoam house to Hope Community Church Tucson, Danielle's sending church. Styrofoam houses are made by stacking blocks of styrofoam and sealing them with concrete. They are incredibly cost-effective to build, insulate homes very well (which drives down utilities costs), are very durable, and best of all are very mold resistant. Hope Community Tucson graciously decided to fund the building of a styrofoam house for Danielle and her husband so that she could continue her missionary work to the Apache youth near Pinetop-Lakeside.

A team of 24 people from Nova Community Church travelled to Pinetop from 8/5-8/9 to complete the first phase of the build. As of now, the foundation has been poured and the first 4 feet of wall has been cut and assembled and is ready for SABScrete. As of now various small groups from Hope Community Tucson will help complete the build. This weekend (8/14-8/16) they will continue to install wall panels. They are hoping to complete the build by the end of September.

If any other groups or churches would like to help, the Hope Community Tucson team and Joseph Brock would gladly accept the help! Any interested groups or churches can reach out to Joseph at (520) 909-4380 or josephbrock09@gmail.com.
