

SCS Virtual Education & Logistics: Technology Training Sessions

June 2021

Types of Training sessions available to teachers:

- **Teams** - These sessions are to ground teachers in the technical knowledge and skills they need to use Teams and Microsoft tools to facilitate digital learning.
- **Canvas** - These trainings will provide teachers knowledge in building and utilizing a District supported Learning Management System to provide virtual instruction for all students.
- **Blended Learning** - These sessions will make explicit connections to the technical knowledge teachers need while providing them with the instructional practices in a blended learning environment.
- **Technology Trainings** – These sessions will provide teachers the opportunity to acquire skill sets related to the infusion of technical shifts into daily instruction.
