

# JOURNEY TO SPACE

## AN UNPARALLELED ADVENTURE OF SPACE EXPLORATION

## PLAN YOUR SPACE ADVENTURE!

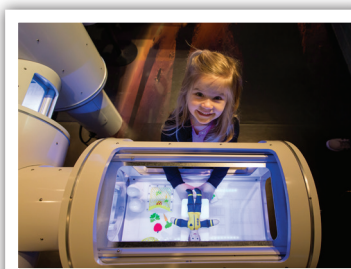

An Out-of-this-World Exhibit Lands in Memphis  
at the Graceland Exhibition Center  
October 11 - January 5

The Journey to Space exhibit features over two dozen hands-on, interactive displays and artifacts from the past 50 years of space explorations.

### Journey to Space experiences include:

- **Experiment** with a vacuum chamber to see how common objects behave in zero pressure
- **Examine** a full spacesuit including gloves worn by Neil Armstrong and an Apollo astronaut helmet
- **Imagine** yourself weightless in space with mirrors that create an optical illusion of floating
- **Control** a robotic arm in the way astronauts do using hand controllers and video monitors
- **Step** inside a full-sized mock-up of the International Space Station's U.S. Destiny Lab module
- **Smile** through your space helmet for a photo as you imagine yourself on Mars

And much more!

### ADMISSION

#### INDIVIDUALS

Adults: \$16  
Seniors 62 and Older: \$14.40  
Youth 13-17: \$8  
Children 3-12: \$5
