<CodeCrew/>

CodeCrew is seeking certified high school teachers who are committed to increasing the quality of Computer Science education for the students in and around Shelby County.

The goals of this fellowship program are to:

• increase teacher knowledge of Computer Science concepts

• provide ongoing support and training to build teacher confidence as they teach Computer Science concepts

• increase access to quality Computer Science education for students

• provide financial incentives for teachers who complete the fellowship program

If this opportunity aligns with your career goals, please apply today!

Accepted applicants will be notified no later than May 28, 2018.

Summer Session from June 5 to July 26

Time: TBD
Location: University of Memphis
