

Big Green is hosting School Garden teacher PD workshops beginning next week. We have built gardens at about 50% of Shelby County Schools and this is a great opportunity for teachers to learn how to start teaching with their school gardens. Join us at one of our upcoming sessions to get your garden ready for fall!

***Big Green Summer Harvesting & Fall Planting Workshop***

*You are invited to Big Green's first school garden workshop of the year for hands-on demonstrations of harvesting summer crops, cleaning out your garden, and fall planting techniques. We will also be talking about a special topics: insects! This workshop will prepare you to plant your garden in September following Labor Day. There will be light snacks and all the resources you'll need. [REGISTER HERE](#) for one of these workshop dates:*
