Overview

Professional Learning and Support is offering a three-part Canvas Course Development Series. The purpose of these courses is to support teachers with using Canvas as an instructor to deliver virtual content using SCS district approved curricula. It is recommended that the courses be taken in sequence. The courses will be available live in Microsoft Teams and self-paced in Canvas.

Course Listing

Canvas Course Development Part One (for Teachers): Getting Started with Canvas

Participants will:

- Apply course development processes to address ADA compliance, use rubrics for submissions, and apply course design techniques leading to a more interactive, visually pleasing course.
- Understand course design elements to increase interactivity and to customize your course.

To access the courses, register in PLZ.
