

Math Standards available in Mastery Connect

Attention Grades 3-8 Math Teachers, if you are looking for a way to review the standards from the Quarter 1 CFA, look no further. The Curriculum and Instruction math team has created mini standards review exercises that can be used for daily warm-ups, Flex day exercises or whatever creative way you can imagine.

To access this resource, please log into your Mastery Connect account and click on the **Community** tab and search for either **Sonia Barber** for grades 3-5 or **Camilla Horton** for grades 6-8. Click on the searched name to open the profile. Once you do that, you should see either ***Dr. Sonia Barber Assessments*** or ***Dr. Camilla Horton Assessments*** (in green) in the top right corner of the screen. Once you click, all of the assessments will populate and you can make your selection.

Here is an example of the name of the file: ***CFA1.StandardReview.6.RP.A.1***

Be sure to check Mastery Connect sometime this week for their availability.
