The Cultivated Thread

The Cultivated Thread is a hand weaving studio in Wiscasset creating handwoven wearables and home goods. Owner Hilary Crowell's former life in organic agriculture inspires product design and informs TCT's core principles: functionality, durability, and beauty. At the loom, Hilary's passion for functional art translates into handwoven towels that are not only visually delightful but also soft and absorbent, ready to be put to work in the kitchen or bathroom. Hilary works exclusively with natural fibers and strives to source organic and/or U.S. produced materials.
