

# COVID-19 WEB TRAININGS

## 2 Hour COVID-19 Awareness

This brief awareness level training is geared for employees that will be returning to the workplace and will be responsible for light cleaning and disinfection in their work space. The objective of this course is to raise the awareness of COVID-19 with factual information and simple steps that employees can take to avoid spreading the disease within the workplace and spreading it home

\$65/per person

April 10 8:00am-10:00am  
 April 16 8:00am-10:00am  
 April 16 12:30pm-2:30pm  
 April 17 8:00am- 10:00am

## 4 Hour COVID-19 Disinfection Worker Certification

This half day session is geared toward janitorial, custodial, cleaning and remediation contractors and employees that are working diligently with the main focus of deep-cleaning and disinfecting surfaces and entire facilities. This training touches on Hazard Communications and Personal Protective Equipment, however, it is highly recommended that individuals that attend the class have some additional experience and training in a remediation field. This course isn't intended to meet and OSHA requirements.

## 8 Hour COVID-19 Disinfection Supervisor Certification

This in depth, full day interactive seminar is the perfect event for building & grounds managers, property managers, construction project managers, custodial managers, remediation managers, and many more. We will cover in depth, the importance for creating and implementing an effective cleaning and disinfection regimen. We will discuss the various classifications of exposure (per OSHA) and how to manage this within your facility. The program will discuss what situations you might consider bringing in a professional decontamination/disinfection contractor, such as if there is a positive COVID-19 case in the workplace. The multitude of disinfection methods will be discussed in depth. We will also discuss a way to effectively communicate to all building occupants about the serious measure that the facility is taking.
