Judging Criteria

Read each section carefully.

The panel of judges represents a cross section of construction industry experts including owners, architects, engineers and other industry leaders. The competition is comparative, using a point system to assist in the comparisons. A project entry can earn a total possible score of 104 points. The different evaluative sections and their point values are listed below. Answers to questions should be clear and succinct, as directed; the quality of an entry's presentation will have a great impact on its opportunity to win. Use the checklist at the end of this document to review your entry prior to submittal.
