of the boxes below  
or on the back

Electrical 1A

(90 hrs)

EL5111A

Build a foundation of knowledge about construction safety, electrical safety, and electrical theory that's necessary to understand the National Electrical Code (NEC). This level will also support electrical math processes needed for calculations. They'll be introduced to the Code rules that are related to general wiring requirements, outlet box sizing, raceway sizing, and bonding and grounding. In addition, they'll learn how a multimeter is used in the field and receive a multimeter competency certification.

Classes start: Tuesday, September 14th, 2021

Tue/Thurs 5-8pm

Please fill out back of this form and return with payment to:
