FIREARM DESCRIPTION

Answering the call for superior ballistic performance in a short, adaptable platform Springfield Armory is proud to announce the Hellion. Featuring a "bullpup" configuration where the action is located behind the trigger, the Hellion features an overall length of just 28.25-inches while still possessing a 16" barrel. The Hellion sports ambidextrous controls that work in concert with a reversible case ejection system, allowing it to be easily fired from either shoulder. The result? A 5.56mm that combines portability with performance.
