ABOUT THIS EVENT

Join the HIV/STI Program at the Oregon Primary Care Association (OPCA) as we reconvene stakeholders to learn about important HIV Pre-Exposure Prophylaxis (PrEP) clinical updates and identify evolving opportunities for innovation and collaboration to improve access. Clinicians, pharmacists, social workers, program administrators, public health, STI/HIV Outreach Workers, and individuals working with people who use substances are encouraged to attend.

Application for CME will be filed with AAFP. Accessibility requests or event questions? Contact aallison@orpca.org
