## EMPOWERING OUR CHILDREN

A Family Series to Help Navigate the  
World We Live In and Raise Global Citizens

*Did you know that 74% of online gamers have experienced harassment, including physical threats, stalking, and sustained harassment?*

## Confronting Hate and Extremism in Online Gaming and Social Media

**August 19, 2020 at 8:00 pm**

The webinar will feature ADL experts, Daniel Kelley, Associate Director, ADL Center for Technology and Society and Lauren Krapf, ADL National Policy Counsel, who will provide you with tools and resources to build safe and positive spaces for your children's online play and social interactions.

While we recognize that extremism and hate online is not going away anytime soon, we want you and your children to be empowered and equipped to confront negative experiences.
