

BUILDING IMMUNITY, STRENGTHENING COMMUNITY

A VIRTUAL TRAINING
SERIES FOR HEALTH
PROFESSIONALS
JUNE 2 - 5, 2025

OUR VISION

WithinReach, in partnership with the Washington Department of Health, American Indian Health Commission, and local coalitions, will host a four-day accredited virtual training on vaccine fundamentals, best practices, and confidence-building strategies. Attendees will gain a deeper understanding of routine immunizations in Washington and renewed motivation for community vaccination. It will be hosted at the lunch hour and recorded to reduce barriers for clinicians to attend. Continuing education credits will be available.

WHY THIS MATTERS

Vaccinators rely on evidence-based training and resources as they deal with burnout, vaccine fatigue, and uncertainty about future federal support. With vaccine-preventable diseases on the rise, providers increasingly rely on coalitions and state health departments for data and resources.

SPONSORS MAKE A DIFFERENCE

Sponsorship will:

- Position you as a partner in immunizations and community health across Washington state.
- Expand your reach to an engaged audience of health care professionals, local health jurisdictions, and state agencies.
- Make an investment in the professional development of providers and vaccination efforts.

Platinum \$10,000

- Full page ad in digital program
- Logo placement on registration site and select promotional materials
- Verbal recognition in opening remarks
- 4 complimentary registrations
- Dollars support attendee materials (printing and mailing costs)
