

Visitors to Maui: Attention
Hawaii State Department of Health Maui District Health Office
Recommendations & Information

Aloha! Please review the following recommendations BEFORE making plans to travel to Maui. We hope you find this to be helpful information to assist in your planning and to prepare in the unfortunate event you or someone in their party is found to be COVID-19 positive or close contact of:

- Before booking your lodging, ensure that location will accommodate you should you require quarantine or isolation if you become suspected of being contagious, awaiting test results for, or needing to be isolated as a positive case of COVID 19. Maui has limited quarantine locations to place sick or suspected sick nonresidents.
- Check the refund policy for rental car, activities, tours, lodging and other arrangements that may need to be changed or canceled in the event of illness. Be aware that some third-party booking agencies and companies have a no- refund policy. If you are suspected or confirmed to be ill with the COVID19 virus you will be required to quarantine and isolate for up to 14 days. You will be unable to leave your place of lodging except to access urgent medical care.
- It is recommended that you carry proof of medical insurance, and that it is applicable to healthcare needs in Maui. Maui County has 1 acute care hospital: Maui Memorial Medical Center is a 219-bed not-for-profit organization, whose website states: *Maui Memorial Medical Center will bill your health plan carrier(s) according to the information provided at registration. You'll be asked to present your current health plan coverage cards and to pay all co-pays, deductibles, coinsurance and fees for noncovered services when registering and checking in for services. Please check your health plan to determine if a provider is participating. If your plan's requirements are not followed, you may be financially responsible for all or part of the services rendered in the hospital.*

- All arriving travelers are required to present a negative COVID test done within 72 hours from a pre-approved site, or will be required to quarantine for 14 days. Please be prepared for delays at points of entry into Hawaii. Travelers may undergo a screening, which may include temperature check, detailed survey form completion, interview and other procedures. If you are suspected of being ill, you will be referred to the Department of Health for further investigation and subject to quarantine.
- Do not travel if you are sick or have symptoms such as fever, cough, sore throat, shortness of breath, headache or stomach issues.
- Helpful and recommended websites for Hawaii's travelers and situational awareness in Maui County:
 - <https://hawaiicovid19.com/travel/>
 - <https://www.mauicounty.gov/2370/COVID-19-Coronavirus-Information>
 - <https://hidot.hawaii.gov/coronavirus/>
 - <https://www.hawaiitourismauthority.org/covid-19-updates/>
- Continue to prevent the transmission of disease by adhering to CDC recommended disease prevention guidelines: wear a face covering your nose and mouth, keep distance of at least 6 feet (1.82 meters) from others whenever possible, cover your mouth and nose when you cough and sneeze, wash your hands frequently and do not travel when you feel sick.
