

## 2021 Western Washington Virtual Short School for Water and Wastewater Operators, Engineers and Managers June 8 & 9, 2021

### *Operator Scholarship Application*

Thank you for applying for an Operator Scholarship to the 2021 Virtual Short School sponsored by the Northwest Washington Subsection of AWWA and the Western Washington Region of PNCWA/WEF. The AWWA Water Equation and PNWS Education & Training Endowment have teamed to provide up to 150 scholarships for 2/3's of the registration fee for water or wastewater operators for this training event. You do not need to be a certified operator to get a scholarship. Scholarships are open to anyone who works for a utility or other entity who is "in the trenches" so to speak, working on the production and distribution of potable or reuse water, or conveyance and treatment of wastewater.

We need you to complete this scholarship application form and email it to: Jeff Lundt – [jeff.lundt@kingcounty.gov](mailto:jeff.lundt@kingcounty.gov) within 7 calendar days of registering. If we do not receive an application, we will invoice you for the remaining registration fee. No scholarship or no full payment, NO CEUs. Pretty simple, huh? **Deadline for submitting scholarship applications is COB Monday May 24<sup>th</sup>.**

If you have any questions, please contact Jeff Lundt at [jeff.lundt@kingcounty.gov](mailto:jeff.lundt@kingcounty.gov) or 206/477-5582. You will hear from us within 7 days of submitting this application whether you do or do not qualify.

*Also, your scholarship includes a one-year membership to AWWA so that you can use all resources and become involved in your local Section.*

Name:		Application date:	
Utility:			
Address1:		Address 2:	
City/Town:		State & Zip code:	
Email:		Phone:	
Position:			
How did you hear about this training & scholarship?			
Are you a U.S. Veteran? (indicate one) Yes No			
What is your career goal in the water or wastewater industry?
