

Juno Beach Ecology Group

Fishing Tournament to Benefit Pelican Lake held April 22.

Juno Beach Ecology Group thanks William Kimball our tournament director for our successful second annual Tilapia Cichlid Rodeo Roundup youth fishing tournament held on April 22, 2023 for Pelican Lake. Our anglers removed nearly 30 pounds of invasive exotic fish to help our beneficial native fish thrive. We doubled the number of Tilapia removed from last year.

TerMarsch Groves team took first place with Blue Water Surf School Team and Dive In Adventures Team in second and third place respectively. This year's fishing had a session of the tournament devoted to cast netting. Dive In Adventure's angler's skills were on display as they pancaked their cast net over the unsuspecting Tilapia, who were hook shy.

Newsletter April 27, 2023

First Place TerMarsch Groves Team

Gold Metal and Trophy Winner: Connor Shookus, Landon Johnson, Charles Bush, Dylan Hayes, Jenny TerMarsch & Willie TerMarsch.

Second Place Blue Water Surf School
