

Juno Beach Ecology Group

Come to our June Meeting

Two main items for discussion:

1. What kinds of plants should the Town be choosing for the banks and shallow waters of Pelican Lake? We will start by reviewing suggestions from the Town's ecology consultant.
2. Apart from Pelican Lake matters, what topic do you think the next Town-led public environmental Workshops should focus on?

Tuesday, June 21, 4:00 p.m., Brigadoon Condo West Building

Everyone is most welcome.

At the gate, buzz Hosta for us to let you enter.

Refreshments served.
