

*Fossil Fuels and the PCUSA  
Options before the 2020 General Assembly  
A Discussion*

At General Assembly this year, commissioners will consider overtures and recommendations around selective or total divestment from fossil fuels and other environmental justice issues. At past General Assemblies, this issue has been divisive with little time for questions or discussion. Our intention is to allow brief presentations, then discussion (but not debate) with a lot of time for questions from those attending. GA Commissioners and all others who are interested are welcome. Admission is free.
