

Looking for a way to highlight your business and attract future workforce? Host an Extern!

EXTERNSHIP PROGRAM

We are excited to invite you to participate in an enriching opportunity to host a teacher for an externship at your organization this summer. This is a unique chance to connect with educators and provide them with valuable hands-on experience to better understand your industry. In turn, they will bring this knowledge back to their classrooms, helping students gain a more practical understanding of potential career paths and opportunities.

Why Host

- Share Your Industry with Future Talent:**
Educators will return to their classrooms and share insights about your organization, promoting your work and your career opportunities.
- Increased Industry Awareness:** By hosting a teacher, you'll help instructors gain a deeper understanding of your field, equipping them to better inform students about your industry.
- Community Engagement:** This externship helps your organization build a stronger connection with local schools and the community, highlighting your role as a leader in your field.

Pairings are not guaranteed, but based on number of participants in the program.

Program Details

- Extern has 20 hours total engagement
- Host sponsors \$750 stipend
- Sign up to participate by May 1st
- Matches finalized by May 15th
