The Mississippi Coalition for Citizens with Disabilities (MSCCD) is a private not-for-profit state-wide cross-disability organization founded in 1989.

Our organization is made up of Mississippians with disabilities and their families, organizations that represent or advocate for people with disabilities, professionals who work in disability-related fields, and other interested citizens.

It is our mission to expand opportunities and enhance the quality of life for children, adolescents and adults with disabilities and their families and to empower these individuals to reach their full potential in every aspect of life.

MSCCD is guided by the vision that one day all people will live, work, learn, and play in a community based on abilities not disabilities.
