## CEO GRANT MEETING

Introduction of the CEO Grant Meeting.

The grant meeting will discuss the current globalization trend, how Chinese companies carry out global strategic layout, how to effectively combine business investment with strategic goals, pursue internal synergy, achieve win-win cooperation externally, and promote corporate development to enhance the globalization of the Chinese enterprise. At the same time, this meeting will also discuss that with the increasingly tight regulatory policies in foreign and domestic market, Chinese companies face increasing challenges in overseas investment and cross-border M&A. How should Chinese companies break through obstacles and can achieve their strategic goals and achieve their industrial upgrade. As more and more companies go abroad, excellent international operation is also a necessary condition for the success of Chinese companies' overseas investment and cross-border M&A.

This meeting will discuss how Chinese companies can improve their overseas asset management and control capabilities, enhance their international operation capabilities. To improve the success rate of overseas investment and mergers and acquisitions. The CEO GRANT MEETING is dedicated to providing a platform for insights and exchange of ideas for the guest who want to go abroad and have a global presence.
