ACM's Women in Computing		**ACM-W** supports, celebrates, and advocates internationally for the full engagement of women in all aspects of the computing field, providing a wide range of programs and services to ACM members and working in the larger community to advance the contributions of technical women.
Carnegie Mellon University ▪ Heinz College		**Carnegie Mellon University's H. John Heinz III College** faculty from our two schools -- the School of Public Policy and Management and the School of Information Systems and Management -- collaborate on instruction and research, an operating model we believe leads to innovation in research and a superior educational experience. Our strengths span the applied disciplines of empirical methods and statistics, economics, information systems and technology, operations research, and organizational behavior. Information security policy and cybersecurity programs are available.
CyberSN		**CyberSN** exists to dramatically decrease the frustration, time and cost associated with job searching for Cyber Security Professionals.
EC-Council		**EC-Council,** officially incorporated as the International Council of E-Commerce Consultants was formed to create information security training and certification programs to help the very community our connected economy would rely on to save them from a devastating Cyber Attack.
HackEd		**Hack Educate** offers a free, 7-week cybersecurity training, certification, and job placement program in Washington, DC, attracting the brightest technical talent in the country.
InfoSec Connect		**InfoSec Connect** • Connecting the Information Security Community With Opportunity.
ISACA Women's Community SheLeadsTech		ISACA • **Connecting Women Leaders in Technology** • The Connecting Women Leaders in Technology program seeks to address the significant underrepresentation of women in business technology leadership roles and the tech workforce.
Million Women Mentors		**Million Women** Mentors supports the engagement of one million science, technology, engineering, and math (STEM) mentors (male and female) to increase the interest and confidence of girls and women to persist and succeed in STEM programs and careers.
