

# REINVENTING METRO!

More go for you

## Reinventing Metro – More go for you

The Reinventing Metro plan will transform the entire region over the next five years.

For non-riders, it will drive economic growth, help employers attract and retain employees, make our region more attractive to new businesses and improve quality of life for everyone. Reinventing Metro’s service improvements will make these accessible by transit:

- 20,000 more jobs at 740 more employers
- \$850 million in total wages for the local economy
- 343,326 jobs at more than 11,000 employers with 24-hour Metro service

For riders, service improvements will provide:

- Less time between buses (frequency)
- More amenities (new buses, transit centers and more)
- Earlier and later service (span)
- Shorter trip times

Here are the improvements planned effective in June 2021:

Service Improvement	Routes Affected									
24-hour service	4	11	17	33	43	78				
Earlier & later weekday service	4	11	16	17	20	33	43	46	78	
Earlier & later weekend service	4	11	16	17	20	33	43	46	78	
More frequent weekday service	16	20	43	46						
More frequent weekend service	16	17	20	33	78					

## Additional improvements in Years 2 – 5 include:

- **More** frequency and span improvements for faster travel
- **More** crosstown routes connecting communities and job centers
- **More** transit centers offering safe, comfortable places to wait and transfer
- **More** suburban job connectivity with new demand-response services
- **More** new buses with free Wi-Fi, charging ports and other amenities
- **More** options for faster travel with Bus Rapid Transit (BRT) limited-stop service
