

January 2019

Memorandum

To: *Exploring Your Future* Supporters
From: Mallory Musolf, Conference Coordinator
Re: 2019 Conference – Saturday, March 2

I am delighted to send you the enclosed brochure, flyer and registration policies for the inaugural *Exploring Your Future* conference, scheduled for Saturday, March 2, 2019 at the University of Wisconsin-Madison. We ask that you duplicate copies of the enclosed materials for your students. If you are only able to copy a minimum number of pages, please copy the registration form for students and their parents. Each registrant will receive complete conference information with his registration confirmation email.

This conference is based on the popular Expanding Your Horizons conference. The goal of the conference is to expose middle school boys especially those who do not have access to science activities outside of school (grades 6, 7, and 8) to the exciting world of math and science and get them thinking about career opportunities in these areas. **Individual or group applications are due Friday, February 15, 2019.** However, we urge potential participants not to wait for this date, but instead to submit their applications as early as possible. Registration for this inaugural conference is limited to 150 boys.

Please do not hesitate to contact us if you have any questions about registration for the 2019 *Exploring Your Future* conference or for specific questions about the career sessions. You can contact us at: eyf.uwmadison@gmail.com or 608/262-4932.

Thank you for your help and support.
