

POP TABS FOR RONALD McDONALD HOUSE

*A Service Project Presented by the Fifth Grade Classes
of SAA and SDS*

WHAT:

We are collecting pop-tabs for the Ronald McDonald House and we would like to ask our K-6 friends for your help!

WHY:

This is the sweetest way to support Ronald McDonald Charities. It takes about 1,200 pop tabs to equal one pound. The house receives 50 cents per pound. This program brings in around 6,000 dollars a year!

HOW:

Collect the little tabs you use to open your soda or any other container, and bring your Pop Tabs to your classroom. The fifth graders will take them up once a month and will donate these to benefit the families of Ronald McDonald House Memphis.

What is the Ronald McDonald House?

Ronald McDonald House Charities® of Memphis offers children with pediatric cancer and other catastrophic illnesses undergoing treatment at St. Jude Children's Research Hospital® and their families a nurturing, family-centered residential community. The House fosters an environment of hope through support services and child-centered activities that encourage children to be children and keep families together near the care they need, always free of charge-near the care they need with the family they love.

Thank you from the SAA and SDS 5th Grade Classes!
