The Town of Sunnyvale is hosting a Community Visioning Workshop as part of the Imagine Sunnyvale Comprehensive Plan process. Come prepared to work in small break out groups on a fun mapping exercise to share your vision for the future of Sunnyvale.

This is your opportunity to identify any key planning priorities, improvements, and potential projects throughout the community. Everyone is encouraged to attend and we hope to see you there!

Can't make it to the Community Visioning Workshop? Scan the QR code to check-out the project website for other ways to get involved!
