Fall 2019 WonderWalk Campaign

Your participation will help so many babies.

WonderWalk provides elementary school students the chance to help March of Dimes give all babies a healthy start. A mini-walk on school grounds, WonderWalk is a fun, safe, educational and rewarding way for students to have a first time experience making a difference in their community.

Students are encouraged to dedicate their walk to someone special, such as a baby brother or sister or someone who is expecting a baby. They raise money by asking friends and family to make donations in order to help them reach their goals.

March of Dimes is looking to our families to help engage new schools to participate.

Why is your help so important?

March of Dimes fights for the health of all moms and babies. We're advocating for policies to protect them. We're working to radically improve the health care they receive. We're pioneering research to find solutions. We're empowering families with the knowledge and tools to have healthier pregnancies. By uniting communities, we're building a brighter future for us all.

Each year, about 380,000 babies in the United States are born too soon. A premature birth can result in lifelong disabilities and sometimes even death. Although there have been several great advances in treating premature babies, there are still many unanswered questions about why prematurity occurs and what can be done to prevent it.

The March of Dimes Prematurity Campaign aims to reduce premature birth in the United States and to give every baby a fair chance for a healthy full term birth.
