

# Critical Service Bulletin Compliance Feature

You can submit compliance of critical service bulletins (SBs) on myCFMportal.com which gives you the ability to quickly visualize the critical service bulletin compliance status. Knowing engine configuration is key to enable proactive CFM support, management and rapid resolution of any technical issue.

Follow this step by step process:

1. Go to [myCFMportal.com](https://myCFMportal.com)
2. Go to the Engine Profile Widget → Fleet Level Compliance
3. Step by step instructions are available in myCFMportal.com FAQs section under Engine Profile

CFM requests SB compliance to be reported within a week of implementing the service bulletin
