UPROOTING INSTRUCTIONAL INEQUITY

The Power of Inquiry-Based
Professional Learning

Jill Harrison Berg

Amplify the power of collaborative inquiry for greater instructional equity.

Leadership coach Jill Harrison Berg presents her i3PD Planning Map for making inquiry-based professional development experiences become engines for schoolwide transformation. The map guides teachers to recognize and reform ways their instructional practice may be contributing to inequity, bolsters facilitators' abilities to help their colleagues become more effective agents of their own learning, and cultivates a culture of organizational learning in schools.

Discover the do's and don'ts of empathetic leadership.

Whether interacting with staff, students, or parents, principals need empathy—a key social-emotional skill—to be effective and drive continuous improvement. In this book, veteran school leader Thomas R. Hoerr makes the case for why schools need a Chief Empathy Officer as principal and how to become one. School leaders will learn how to grow their own empathy, as well as that of others, and how empathy can help build strong relationships among staff members, reduce conflict, improve instructional leadership, and more.

GROWS

Flexible grouping positions every student to learn better.

Unlike traditional grouping, which typically puts like with like or combines students without regard to the best way to promote their individual growth, flexible grouping is both purposeful and fluid, regularly combining and recombining different students in different ways to pursue a wide range of academic and affective goals.

In this comprehensive guide to flexible grouping, Kristina J. Doubet shares a staged implementation approach that takes students from simple partner set-ups designed to build cooperative skills to complex structures ideal for interest and readiness-informed academic exploration. She highlights how this approach to organizing learning can help educators disrupt rigid tracking, deliver targeted instruction, connect to student interests, boost collaboration, and build community.

Make literacy accessible for all students.

Literacy is the foundation for all learning—and teachers must also be equipped with culturally relevant pedagogy to improve literacy instruction for all. Literacy expert Parker gives teachers the tools to build culturally relevant intentional literacy communities (CRILCs) with students. Her innovative guide helps teachers make the literacy classroom a place where students can safely talk about key issues, move to dismantle inequities, and collaborate with one another.

Empower newcomer students with trauma-responsive strategies.

Entering a new school means situating oneself within a new context of language, culture, community, and shifting personal identities that can result in transition shock and a sense of diminished power for many newcomer students. To better serve these students, educators need to include transition shock in their conversations about trauma. Here, cultural competency expert Louise El Yaafouri explores how teachers can mitigate transition shock and restore their students' power with trauma-informed practices.

Questions can start dialogue, engage (not exclude), lead to uptake, and invite students to maintain learning. When used effectively, quality questions and student dialogue result in self-regulated learners and formative feedback that reveals progress toward learning goals.

In this practical book, Jackie Acree Walsh explores the relationship between questioning and feedback in K–12 classrooms and how dialogue serves as the bridge connecting the two. She provides a manual of practice for educators who want to use quality questioning, productive dialogue, and authentic feedback as a powerful trifecta to fuel and accelerate the academic, social, and emotional learning of all students.

INTRODUCING . . .

RussoRights is pleased to announce Stenhouse Publishers as its newest educational publisher. Stenhouse provides quality professional learning resources by teachers, for teachers. Their goal is to offer PreK–12 educators a set of proven strategies from which they can choose and adapt to their students' needs and their school culture.

All of Stenhouse's resources, ranging from literacy and math instruction to classroom practice, are grounded in a philosophy of education that respects both teacher and learner. They are designed to integrate theory, research, and practice in an accessible manner, enhancing educators' professional knowledge and building their students' skills as readers, writers, and thinkers. Stenhouse is devoted to helping teachers inspire deep and creative thinking in their students. Their products model the collaborative and reflective relationships that foster deep learning and elevate teacher excellence.

Engage students in daily literacy assessment.

With the release of *The CAFE Book* in 2009, the CAFE system (Comprehension, Accuracy, Fluency, and Expanding Vocabulary) has been implemented in classrooms all over the world. It changed the way educators assess, teach, and track student information and has positively impacted the way students learn, practice, and talk about reading. This expanded edition includes many new practical resources to help with lesson planning, assessments, goalsetting, checklists, and much more.
