

OBSERVER CORPS REPORT

City of South Daytona
Reported by Olga Hernandez

June 18, 2026

South Daytona is celebrating the 75th anniversary of its founding.

South Daytona continues to work on their mission to help residents with storm resilience. The city has obtained several grants from multiple levels of government to help finance this effort. The City was highly impacted by flooding during the last three hurricanes.

Lift stations have been installed, repaired or replaced while ponds and canals have been cleaned or deepened to handle water. Some property is being bought to provide easement to make installation possible.

The small city has been attending to residents' life experiences by supporting community events and sports with great parks.
