

TEAM REPORT

Roster Management

Submitted by Olga Hernandez

We currently have 204 members! We are growing, as we usually do in an election year.

With the new membership portal, I am seeing more members choosing to do auto renewal which are processed on the renewal date. Thank you, this saves lots of follow-up. LWWUS sends an email renewal notice about 30 days before, check your spam folder for emails. Now they will include the email address on the database to avoid people logging in with a different email which will create a new record, this new process should be smoother, fingers crossed.

The bulk of our members had membership expiration dates on June 30. Besides the email from LWWUS I email and or text those that have not renewed to remind them to do so. I call, but most folks don't pick up phone calls, I then leave a message. If you do not renew by 60 days after your due date LWWUS will automatically drop you from the roster.

I encourage you to write down your due date, found on the roster, so you are aware when it is time. The recommended amount of \$75 is set by LWWUS but you are able to pay anything above \$20. If you intend to make a donation (a welcomed act) we prefer it be done via our PayPal link on our website and not through the portal which can split the amount between all three League levels. I also pick up checks from our P.O. box, but let me know to be on the lookout.
