

OBSERVER CORPS REPORT

South Daytona

Reported by Olga Hernandez

February 20, 2026

The city has been using "Transform 386" <https://www.transform386.org/> program funds awarded to the county of which the City got a portion. They also got legislative appropriation of 1.75 million from the state for mitigation. This is paying for the years long flood mitigation projects around South Daytona.

Ponds are being deepened and or widened and banks stabilized. Storm water pumps are being installed to deal with the flooding the city suffered from after hurricanes. They bought a claw truck which can be used to clear debris.

They will be revitalizing the existing park where the bicentennial rock is located, a time capsule will be buried to celebrate the U.S. 250th Anniversary and South Daytona's 75th anniversary this year. The city also received a county ECHO Grant to install dinosaur prehistoric park in Reed Canal Park.
