

TEAM REPORT
Natural Resources
Submitted by Pattie Gertenbach

August 13, 2016 Meeting:

After a very busy winter and spring, the Natural Resources Team action items calmed down this summer. At our August meeting, we exchanged ideas for our 2027 Hot Topic. We agreed to wait and see what happens with the Amendments (both local and state) in the upcoming election. The local amendments to the Volusia County Charter will be the focus of the upcoming September 17th Hot Topic – What’s on Your Ballot.

We discussed the lack of responses by several candidates on the LWV Vote411 website.

The 41st International Coastal Cleanup will be held Saturday September 19, 2026 at a number of locations around Volusia County. Go to <https://www.volusia.org/services/growth-and-resource-management/environmental-management/get-involved/waterway-cleanups/international-coastal-cleanup.stml> to learn about where the cleanups will occur and how to sign up.

We discussed having another field trip. Looking for ideas. With all the stories in the news about food safety, one idea was to visit a local farm.
