Realize the full potential of your new initiatives and drive impact.

OVERVIEW

The challenge of realizing the full potential of something new is just as difficult as the process of creating it. Mastering the art of changing quickly is a critical competitive advantage today, more than ever, as organizations need and are forced to change at an unprecedented pace.

ExperienceChange™ Virtual prepares individuals and teams to lead their people through change in a time of historical business disruption and transformation. In this live, virtual and expert-guided workshop, participants tackle a realistic change project and engage with the behaviors, tools and skills that make change happen.

With hands-on practice, a highly-engaging and digitally-driven experience and expert guidance from an ExperiencePoint-trained facilitator, participants learn both what to do and how to lead so that people accept, adopt, develop and maintain change.

Three, 90-minute modules can be scheduled at times and cadences that best meet your people's schedules and business needs.

PARTICIPANT PROFILE

For remote and virtual leaders and managers who need to lead change to drive immediate impact for their strategies or projects.

OUTCOMES

Understand the need for and the impact of change on your innovation and transformation initiatives.

Learn a process, common language, and vision around change and the role leaders and managers play in helping accelerate and realize the full potential of company ideas, strategies, and initiatives.

Understand how to successfully engage, align and lead company stakeholders around new ways of doing things, so you can help build a culture of execution.

Minimize the risk of project misfires or delays.

Leave with a process, the practice and confidence to lead change in your organization immediately, so you can drive impact.
