Pre-Cast Specialties

Pompano Beach, FL

Skanska Civil SE

Pensacola, FL

Spancrete

Sebring, FL

STABIL Concrete

St. Petersburg, FL

Standard Concrete Products

Tampa, FL

Invitation for Membership:

The Florida Prestressed Concrete Association (FPCA) cordially invites you to participate and contribute to our mission and goals; to provide the construction industry in Florida a superior building system that is durable, attractive, and economical, and to advance technical, education and marketing efforts for producer members of prestressed concrete in the state.

Benefits of being a member:

- Discount and notification of PCI webinars and trainings
- Networking opportunities with producers/potential customers
- Supporting the precast/prestressed industry to increase market share
- Sponsorship & recognition opportunities at FPCA events
- Networking with local professionals, professors, future specifiers
- On-line & newsletter presence
- Monthly presence through Executive Director report to all producer members

FPCA is managed by a full time Executive Director, Mr. Diep T. Tu, P.E. and a Chapter of PCI. The technical, educational, marketing and promotional activities of FPCA are guided and supported by the three standing committees; the education committee, marketing committee, and the FDOT liaison committee.

FPCA offers membership opportunity for firms and individuals, beyond those who produce precast and prestressed concrete products. We recognize the important contribution that suppliers, professional service providers, erectors and others provide to our exciting industry and offer several classes of membership as a valuable way to participate and contribute in our mission.

Attached you should find a copy of the Membership Application or contact Diep (Diep@myFPCA.org). You could also fill out online at www.myFPCA.org. We look forward to your support and active participation.
